So the juvenile was found delinquent.

● Now what?

2

---

---

---

---

---

---

---

---

Tell the judge why the juvenile needs what you are recommending.

3

---

---

## Psychosexual Evaluations and Risk Assessments

- A sexual risk assessment will give more diagnostic information (i.e. the results of several assessments) but will not provide a psychiatric diagnosis. \*RTC's
- A psychosexual evaluation will provide a psychiatric diagnosis with less sexual diagnostic information.

4

---

---

---

---

---

---

---

---

## 8-341.01 Residential treatment services

- A. If at a disposition hearing or a subsequent hearing the court orders a delinquent juvenile or incorrigible child to receive residential treatment services, other than psychiatric acute care services as defined in section 8-271, the placement **must be supported by a written psychological, psychiatric or medical evaluation recommending residential treatment services.** The court may waive the written evaluation for good cause shown.

5

---

---

---

---

---

---

---

---

## 8-341.01

- B. If the court orders a child to receive residential treatment services, the court shall find by **clear and convincing evidence** that both:
  - 1. The child **requires residential treatment** services to address the child's behavioral, psychological, social or mental health needs.
  - 2. Available alternatives to residential treatment services were considered, but that residential treatment services are the **least restrictive alternative.**

## Psychosexual Evaluations and Risk Assessments

- Several diagnostic tools "measure" sexual risk:
- ABEL – measures arousal to children
- J-SOAP II, J-SORRAT, and ERASER all measure risk to reoffend
- PHASE Sexual Attitudes Questionnaire, and Adolescent Cognitions Scale – measure cognitive distortions or deviant attitudes
- Adolescent Sexual Interest Cardsort – measures what juvenile is aroused to

7

---

---

---

---

---

---

---

---

## Actuarials

- J-SOAP II, J-SORRAT, and ERASER all measure risk to reoffend, but...
- general characteristics of sex offenders and are not "scientific" evidence

### What is ACTUARIAL RISK ASSESSMENT?

Written by Pam MS, NCSP | Fact checked by Psychology Dictionary staff

a mathematically measured prediction of the potential of a person who will present a danger to other people or have interaction in select actions, like destructive behavior, inside a chosen time frame. As opposed to scientific risk assessment, it depends upon information from specific, measurable factors, like age or sex, that have been authenticated as predictors and utilizes numerical analyses and formulations to assess the likelihood of risky or destructive behavior.

ACTUARIAL RISK ASSESSMENT: "Actuarial risk assessments are often performed on prisoners being released or paroled."

## Your disposition recommendation...what to consider?

- Number of victims
- How prolonged was the offending?
- Male and female victims? Or only one gender?
- Stranger victim or known victim?
- Any "grooming" behavior?
- Does the juvenile show any insight into his or her offending behavior?

10

---

---

---

---

---

---

---

- The juvenile's background (other sex offenders in the home?)
- Other potential victims? (e.g., access to younger siblings, other younger children)
- Pornography
- Computer/ smartphone usage issues
- Attempts to contact victim
- Arson
- Animal abuse
- Drug issues
- Other weird issues

# Polygraphs?

- *Jacobsen v. Lindberg*, 225 Ariz. 318 (App. 2010) addresses whether sex offenders can be required to take polygraphs as part of probation. The case seems to indicate that a defendant must specifically invoke his rights—and have the right to do so—in order to argue that he/she is exempt from polygraphs. (i.e., it is a narrow exception, and most defendants do not use it properly.)

## Felony warnings

8-341

- Tells court the options for dispositions.

### 8-341(C)- First Time Felony Warning

- C. If a juvenile is adjudicated as a first time felony juvenile offender, the court shall provide the following written notice to the juvenile:

You have been adjudicated a first time felony juvenile offender. You are now on notice that if you are adjudicated of another offense that would be a felony offense if committed by an adult and if you commit the other offense when you are fourteen years of age or older, you will be placed on juvenile intensive probation, which may include home arrest and electronic monitoring, or you may be placed on juvenile intensive probation and may be incarcerated for a period of time in a juvenile detention center, or you may be committed to the department of juvenile corrections or you may be prosecuted as an adult. If you are convicted as an adult of a felony offense and you commit any other offense, you will be prosecuted as an adult.

16

---

---

---

---

---

---

---

---

### 8-341(C)- First Time Felony Warning

- You have been adjudicated a first time felony juvenile offender. You are now on notice that if you are adjudicated of another offense that would be a felony offense if committed by an adult and if you commit the other offense when you are fourteen years of age or older, you will be placed on juvenile intensive probation, which may include home arrest and electronic monitoring, or you may be placed on juvenile intensive probation and may be incarcerated for a period of time in a juvenile detention center, or you may be committed to the department of juvenile corrections or you may be prosecuted as an adult. If you are convicted as an adult of a felony offense and you commit any other offense, you will be prosecuted as an adult.

17

---

---

---

---

---

---

---

---

### 8-341(E)- Repeat Felony Warning

- You have been adjudicated a repeat felony juvenile offender. You are now on notice that if you are arrested for another offense that would be a felony offense if committed by an adult and if you commit the other offense when you are fifteen years of age or older, you will be tried as an adult in the criminal division of the superior court. If you commit the other offense when you are fourteen years of age or older, you may be tried as an adult in the criminal division of the superior court. If you are convicted as an adult, you will be sentenced to a term of incarceration. If you are convicted as an adult of a felony offense and you commit any other offense, you will be prosecuted as an adult.

18

---

---

---

---

---

---

---

---

## But...8-341(F)

- F. The failure or inability of the court to provide the notices required under subsections C and E of this section does not preclude the use of the prior adjudications for any purpose otherwise permitted.

## HIV testing

### 8-341(O)

O. On the request of a victim of an act that may have involved significant exposure as defined in section 13-1415 or that if committed by an adult would be a sexual offense, the prosecuting attorney shall petition the adjudicating court to require that the juvenile be tested for the presence of the human immunodeficiency virus. If the victim is a minor the prosecuting attorney shall file this petition at the request of the victim's parent or guardian. If the act committed against a victim is an act that if committed by an adult would be a sexual offense or the court determines that sufficient evidence exists to indicate that significant exposure occurred, it shall order the department of juvenile corrections or the department of health services to test the juvenile pursuant to section 13-1415. Notwithstanding any law to the contrary, the department of juvenile corrections and the department of health services shall release the test results only to the victim, the delinquent juvenile, the delinquent juvenile's parent or guardian and a minor victim's parent or guardian and shall counsel them regarding the meaning and health implications of the results.

20

---

---

---

---

---

---

---

---

## HIV testing

### ● 2 ways under 8-341(O):—

- First way: If the act may have involved significant exposure as under 13-1415 or if the act would be a "sexual offense" (See 8-341(V)(3)). (HIV testing only)
- 8-341(V)(3): "Sexual offense" means oral sexual contact, sexual contact or sexual intercourse as defined in section 13-1401.

21

---

---

---

---

---

---

---

---

### HIV testing

- 13-1401(A):
- "Oral sexual contact" means oral contact with the penis, vulva or anus.
- "Sexual contact" means any direct or indirect touching, fondling or manipulating of any part of the genitals, anus or female breast by any part of the body or by any object or causing a person to engage in such contact.
- "Sexual intercourse" means penetration into the penis, vulva or anus by any part of the body or by any object or masturbatory contact with the penis or vulva.

22

---

---

---

---

---

---

---

### HIV, back to 8-341(O):

- the act that may have involved significant exposure as defined in section 13-1415 or that if committed by an adult would be a sexual offense
- At victim's request or request of victim's guardian
- the prosecuting attorney shall petition the adjudicating court to require that the juvenile be tested for the presence of the human immunodeficiency virus.

23

---

---

---

---

---

---

---

### 8-341(O)

- Second way: If the act committed would be a sexual offense or the court determines that sufficient evidence exists to indicate that significant exposure occurred, it shall order the department of juvenile corrections or the department of health services to test the juvenile pursuant to section 13-1415. (Testing can be ordered under 13-1415...i.e., test for different diseases too)

24

---

---

---

---

---

---

---

## 8-341(O)

- This second way requires 1) if by adult would have been a sex offense OR the court finds sufficient evidence to indicate that significant exposure occurred.

25

---

---

---

---

---

---

---

## 8-341(O)

- What might be sufficient evidence?
  - Factual basis for a plea?
  - Police report?
  - Victim impact statement?
  - No case law defining how

26

---

---

---

---

---

---

---

## But...

- State need not prove, ... that human immunodeficiency virus (HIV) testing of juvenile sex offender and disclosure of the information is necessary; necessity for disclosure has been determined as legislative judgment. *State v. Superior Court In and For County of Maricopa* (App. Div.1 1996) 187 Ariz. 411, 930 P.2d 488, review denied.

27

---

---

---

---

---

---

## 8-341(O) vs. 13-1415

8-341(O)	13-1415
-presence of the human immunodeficiency virus	-human immunodeficiency virus -Chlamydia -Genital herpes -Gonorrhea -Syphilis -Trichomonas

### 8-341(O)

"The legislature drafted A.R.S. § 8-241(N) to permit testing in a broader range of cases, and we have concluded that testing in the event of potential exposure to the perpetrator's bodily fluids withstands Fourth Amendment scrutiny, even if such exposure does not rise to the defined level of "significant exposure." State v. Superior Court In and For County of Maricopa (App. Div.1 1996) 187 Ariz. 411, 930 P.2d 488, review denied.

---

---

## 13-1415

- A. A **defendant**, including a defendant who is a minor, who is alleged to have committed a sexual offense or another offense involving significant exposure is subject to a court order that requires the defendant to submit to testing for the human immunodeficiency virus and other sexually transmitted diseases and to consent to the release of the test results to the victim.

## State v. Eccles, 179 Ariz. 226 (1994)

- Defendant Michael Eccles was told that one of his conditions of probation included that he must "waive any and all rights," including the right not to incriminate himself. *Id.* at 227. Eccles was informed that "refusal to follow any of these instructions would be a violation of your conditions of probation, and can result in a revocation of probation, and imposition of a prison sentence." *Id.* Thus, the court noted that such a waiver was prohibited, in keeping with *Minnesota v. Murphy*, 465 U.S. 420, 104 S.Ct. 1136 (1984).

42

Jacobsen v. Lindberg, 225 Ariz. 318, 238 P.3d 129 (App. 2010)

- “Jacobsen may assert the privilege against self-incrimination as to polygraph questions that may incriminate him. The trial court should apply the guidelines set out by the supreme court in Eccles in determining which questions are properly objectionable.” Id. at 323.

- No Fifth Amendment privilege with regard to sexual thoughts, fantasies or behaviors for which there is no possible crime that could be prosecuted

- “[W]e do not hold that a defendant may not incriminate himself; to avoid doing so he must assert the privilege at the appropriate time.”
- “[T]he defendant’s probation cannot be revoked for a valid assertion of the privilege against self-incrimination. We emphasize the word valid. . . . The polygraph examination may explore a defendant’s background and actions that are not incriminatory, or a defendant may choose not to exercise his full rights. In either case, the polygraph may still be given.”
